

The First Electronic Oil Record Book Approved by a Major Flag State

Challenges of Using Paper Oil Record Books

MARPOL, the ISM code and Port State Control have become stricter and emphasize recording every event onboard. As a result, this affects crew efficiency, adds administrative work, and calls for a more effective and efficient system.

Challenges

- Inaccurate recordkeeping of operations
- Erroneous entries
- Failure to properly maintain adequate records onboard
- False statements which cannot be verified
- Time consuming and inefficient process
- Heavy paperwork and administrative burden

Consequences of Deficiencies in Oil Record Books

- Criminal and civil action by the U.S. Department of Justice against shipowners and crew
- Costly and lengthy court battles
- Fines for vessel managers and owners
- Career damage and seafarer criminalization
- Vessel detentions
- Potential pollution through illegal actions onboard
- Adverse effect on fleet trading abilities
- Damage to ship operator reputation

Solution: Electronic Oil Record Book (ε-ORB)

An electronic oil record book is a software application designed to replace the traditional paper oil record books (ORB) (Part I and Part II) and facilitate accurate ORB entries into an efficient electronic format, while complying with international conventions and flag State requirements.

The ε-ORB is designed in accordance with the MARPOL Annex I regulations 17 & 36 as well as IMO Circ 736/Rev 2.

The software is tested in order to establish

transparency, credibility & traceability

Advantages of e-ORB

Features	Advantages	Benefits
✓ Automated calculations	✓ Prevent vague entries and mistakes	✓ Ease of mind pulling into ports knowing your vessel maintains accurate information ✓ Prevent detentions, avoid delays at ports ✓ Prevent law suits and criminal charges
✓ User friendly software	✓ Recordkeeping is efficient and effortless ✓ Paperless solution assists seafarers in their duties	✓ Save man hours onboard and saving on overtime costs ✓ No chance of having oil record books go missing onboard
✓ Secured access	✓ Ensured transparency and accountability	✓ Prevents unauthorized access or making copies without permission
✓ Unique e-signature required	✓ Recordkeeping is only performed by authorized personnel ✓ Ensure traceability of operations	✓ Peace of mind that only authorized officers are recording oil record book entries onboard
✓ Maintenance and support plan available	✓ Mandatory software updates provided in a timely manner and ensure compliance with regulations ✓ IT technical support to user in less than 24 hours	✓ Always have the Liberian Registry and Prevention at Sea in your corner to step in at any time should an issue arise onboard regarding the software

Advantages of ε-ORB Con't

Features	Advantages	Benefits
✓ Compliance with IMO regulations and requirements	✓ Software designed using MARPOL and the MEPC 66/7, as guidance, dated 20 December 2013 "Report of the correspondence group on the use of electronic record books under MARPOL"	✓ Software meets flag State and international regulatory requirements
✓ A 'piping diagram' module	✓ User is assisted in designing the ship's piping diagram, and recording operational entries by simply dragging/dropping icons	✓ Ship owner is confident in the authenticity of a vessel specific piping diagram ✓ Easy and fast to make ORB entries without errors
✓ A 'sounding tables' module	✓ User is assisted in the rapid calculation of the current content inside a tank by simply inserting the height measurement, trim and list	✓ Save man hours onboard
✓ ε-ORB cloud portal	✓ Ship owners are able to access all their vessels' ε-ORBs from ashore, run reports, search and benchmark data across their fleet	✓ Save time during internal audits by pre-checking logbooks ✓ Compare one vessel's activities against others in your fleet
✓ Backup system	✓ It is easy to archive and retrieve past data ✓ Data security	✓ Convenient access to ε-ORB data ashore and at sea upon need

Minimum Requirements for the Software Installation

- Minimum Ram 2 GB. For remote stations on board minimum ram 1 GB
- Recommended screen: 15"
- Resolution: 1280 x 720
- Windows platform: Minimum Windows XP Service Pack 3
- Storage Size: 256 MB
- CPU 800 MHz

Industry Associations & Governmental Organizations

The Liberian Registry and P@S has met with:

- Intertanko/Intercargo (June 2016)
- USCG (September 2016, Jan. 2017, May 2017)
- IMO (October 2016)
- EMSA (October 2016)
- OCIMF (October 2016)
- German flag State &PSC (November 2016)
- Malta flag State (January 2017)
- Luxembourg flag State (January 2017)
- Paris MOU (February 2017)
- Japan flag State (March 2017)
- AMSA (March 2017)

Assistance & Support

We provide assistance at 3 different levels:

- Updates to the software (IT and regulatory)
- Customization guidance
- Technical assistance on MARPOL regulations

Software Pricing Plans

OUTRIGHT PURCHASE

PART I

\$1,600

PART I & II

\$1,750

- ✓ Basic e-ORB software
- ✓ Piping diagram module: assists in designing the ship's piping diagram and recording operational entries by using those diagrams
- ✓ Sounding tables module: assists in the rapid calculation of contents inside a tank
- ✓ 12 months of software and regulatory support

** Buy the software upfront and pay only \$250/year for annual maintenance and support in future years*

PAY AS YOU SHIP PLAN

PART I

\$589/ship/year

PART I & II

\$619/ship/year

** Instead of buying the software outright, pay a yearly fee for the software (includes all the features of outright purchase version and future years' annual maintenance and support)*

Additional Options

Customization

Customization Fee

\$999/lead ship

** Contact us for a full quote based on fleet size and characteristics*

Cloud Portal

Cloud Portal Fee

\$144/ship/year

** The cloud portal ensures secure back-up and access to your vessels' ε-ORBs from ashore, and gives you the ability to run reports, search and benchmark data across your fleet*

Accessories

INDIVIDUAL COMPONENTS	PRICE (\$)
SIGNATURE PAD	250
SIGNATURE PAD BIOMETRIC DATA VERIFICATION	110
DISASTER RECOVERY BACK-UP DEVICE	350

** Signature pad items are subject to the supplier's pricing list*

**Thank you for
your time!**
